Thanks for taking our survey!

1. When you're commenting in an online discussion or argument, which of these are most important to you?

	Not important	Maybe important	Important
I can indicate the topic I'm discussing			
There are extra features useful in my domain/area of interest			
It's easy to see the messages I care about			
I can reference a particular part of a document or message			
There's enough space to write my own message			
I can quote or reference earlier parts of the discussion			
It's easy to use			
I can annotate documents or messages			
I can see the whole conversation (even if it's on multiple social networks)			
I can tell who wrote earlier messages			
I know whether a comment is up-to-date (not superseded)			

Comments?
